

DROP

Whole House Backwashing Filter

Use to Improve Taste, Odor and Color

The DROP Whole House Backwashing Filter removes contamination and sediment, while also providing all the benefits of DROP leak protection.

Features

- Removes organic solids, and removes or reduces chlorine, THM, pesticides and other chemicals commonly found in domestic water (depending on media used)
- Adjustable Cycle Times
- 9V Battery Backup for Power Loss
- DROP App to Control System from Anywhere
- Water Usage Data and History
- Provides text messages, emails and/or push notifications system information to your smartphone.
- Proprietary two valve manual bypass with 1" MNPT Connections.
- 5 Year Warranty

Benefits

If you have a larger home or are concerned about chemical contamination and/or greater amounts of sediment in your domestic water supply, the DROP Whole House Backwashing Filter is the way to go. This professional-grade filter comes in two sizes and includes a backwashing cycle that periodically flushes the filter to clear it of excess debris and chemical accumulation.

DROP offers the only water filters in the world that protect your home from water leaks in addition to providing all the benefits of treated water. When paired with DROP Leak Detectors through the DROP Hub, this system provides all the benefits of a top of the line water filter, home leak protection, and a water conservation system in one.

DROP Leak Detectors

Place DROP Leak Detectors under sinks and dishwashers, behind toilets or washing machines, near your water heater, or anywhere that water might leak or collect. If a leak or freezing temperature is detected, the Leak Detector will have the DROP Backwashing Filter turn off your water.

| Models | F-15 | F-25 |
|-------------------------------------|----------------------------------|----------------------------------|
| Filter Media Capacity | 1.5 ft ³ | 2.5 ft ³ |
| Mineral Tank (Vortech™) | 10 x 54 polyglass | 13 x 54 polyglass |
| Service Flow - Continuous* | 5.0 gpm | 8.0 gpm |
| Service Flow - Intermittent* | 7.0 gpm | 10.0 gpm |
| Backwash Flow Rate** | 5.0gpm | 7.0 gpm |
| Gallons Used / Backwash | 100 | 140 |
| Battery Backup | 9V Battery Backup for power loss | 9V Battery Backup for power loss |
| Product Dimensions and Size | D: 10in W: 10in H: 62in | D: 13in W: 13in H: 62in |
| Approximate Shipping Weight | 32 lbs | 40 lbs |

* Use of a Flow Control in the service line is highly recommended.

** Caution should always be used in sizing filters. Always choose a unit by first satisfying the backwash flow requirement. Consult the factory or your field sales person with questions.

When a leak happens, the DROPLEAK Leak Detector instantly sends a signal via DROPLEAK Link low frequency radio to the DROPLEAK Hub, the central controller of the smart home leak detection system. From there, you will receive an alert through the DROPLEAK App, email, or text message so you will know immediately what is occurring.

The DROPLEAK Hub

The DROPLEAK Whole House Backwashing Filter requires the function of the DROPLEAK Hub. The hub is the connection to everything on the DROPLEAK Smart Water Management system. It integrates all of your residential water devices together.

The DROPLEAK Remote

This unique device is an excellent accessory with any other DROPLEAK product. This smart remote lets you turn on/ off your water with a convenient button, notifies you of new system status events, and extends your wireless DROPLEAK Link network.

The DROPLEAK Leak Detector

Never worry about coming home to frozen pipes, absurdly high water bills or a soaked kitchen. These inconspicuous water-saving devices integrate with our smart water monitoring system to safeguard your home.
